University of Wisconsin's Crew, Which Will Row Yale This Month

Madison, Wis., May 15.—It is just four the time for preparation against Ya Fenrs since the first eight-oar shell made has been short. This is offset by the next the rock of the crews are the crews and the rock of the crews are the crew are the crews are the crew are the crews are the cre possible. This is offset by the proximity of a smaller take, which is only tarce-quarters of a mile distant, and ro situated that when one lake is rough the other is invariably amount. Rough water on the home lake entails a run of three-quarters of a mile to obtain practice.

A wagon has been built long enough to carry the shell, and when a trip has to be made the crew trot along by the wagon.
